

NEW TECHNOLOGY . NEW STYLE . NEW EXPERIENCE

Being billiard balls manufacturer for over three generations, VIGMA has been the craftsman of many branded balls. VIGMA concentrates in providing the top of the line of the leisure products over the years. With extensive experience and exposures, VIGMA offers a complete line of traditional, contemporary and commercial billiard balls. Let' s experience the excellence of VIGMA balls and enjoy the pool.

What makes VIGMA® balls perfect?

We have invested in inventing equipment, facilities, material, research and development continuously over the last 50 years, and we now have the perfect balls made for the pool-players – VIGMA. Durable Material, Advanced Technology and Style make VIGMA balls perfect. All VIGMA balls are made of exclusive *Kobo Resin* combining with the advanced technology which allow VIGMA balls to possess accurate weight, precise density and balance, perfect rebound, flawless surface polish, vibrant colors, excellent brilliancy, extreme hardness and best value. VIGMA also provide a wide range of styles of billiard balls to the pool-players. VIGMA carries a series of researches and studies over the last 30 years aiming to create a breakthrough in styling. Nowadays, VIGMA is capable to offer our customers with permanent full color photo quality images on balls. Comparing to the bleary image available in the market, VIGMA can provide sharp clear photo image on the balls without distorting the ball surface during engraving.

VIGMA's mission is to provide perfect stylish balls to the customers with our exclusive advanced technology and guaranteed quality.

VIGMA® BALLS

Accurate Weight

Complying with the BCA standard, all VIGMA balls are of accurate and uniform weight. The balls in each set are made under the same batch of production. In addition, each set of balls has batch number for identification and for quality assurance.

Uniform Density & Balance

Uniform density of the *Kobo Resin* used in VIGMA balls would allow the players to have total control of the balls in speed, direction, spin, impact and rebound. Having uniform density gives the balls perfect equilibrium when rolling.

Perfect Rebound

Kobo Resin used in VIGMA balls has been formulated and tested to give optimum rebound. VIGMA balls make every bit of your strike counts.

Flawless Surface Polish

IT is crucial to have perfection in the ball surface to make every shot perfectly slipped. All VIGMA balls have been treated under water polish process to ensure the surface to be flawlessly round and smooth.

Vibrant Color

Color quality of all VIGMA balls are controlled by sophisticated professional spectrophotometers. For tailor-made or special edition of VIGMA balls, full color images in photo quality are permanently dyed by latest imprinting technology HTD, the color of the design is assured and hence the images on the balls are clear, sharp and enduring.

Excellent Brilliancy

With our unique formula of resin used in VIGMA balls, the lustrous and smooth surface of the balls can be maintained even under high friction temperature and pressure due to replication of hitting.

Extreme Hardness

VIGMA balls are made to sustain nearly 10,000 lb load. The extreme hardness of *Kobo Resin* allows VIGMA balls to be at least twice more scratch-resistance than other balls. The likelihood of getting burn spots on both the balls and the cloth is dramatically reduced and hence save your money.

Best Value

Direct selling from the manufacturer, VIGMA balls are believed to be the best value billiard balls not just to play with, but also to be your collectibles. Exclusive *Kobo Resin* is used for all VIGMA balls to provide extended life of at least 5 times longer and can withstand over 400,000 hits, especially cost effective to commercial gamerooms.

Exclusive Advanced Technology

VIGMA value your satisfaction and invests in research and development over the years. The latest Heat Transfer Dye (HTD) technology is exclusively used in VIGMA products. HTD application is highly specialized, requiring sophisticated equipment and advanced knowledge in chemical engineering. HTD can transfer full color photo quality images onto VIGMA products. HTD is the only available technology to allow clear, sharp and permanent images displaying in the billiard balls.

Customization – Be Unique

You got your own style or design? No problem, VIGMA can do customization for you. With our exclusive technology, VIGMA could imprint your design on the balls permanently, without fading. Why wait? License your design in full color on our VIGMA balls now!

Corporate Gift – Show Prestige

Thinking of making an impressive corporate gift for clients?

Think VIGMA. *Kobo Resin* is also good for making your corporate gifts such as paperweight, desktop ornaments, key chains and even trophies. VIGMA would tailor-made your designs with your company logo imprinted on the product. By presenting unique VIGMA made corporate gift, prestige of your company would be rose.

Assured Consistent Quality

Quality is one of first priorities of VIGMA balls, thus all VIGMA balls are inspected and quality-checked before every single shipment. VIGMA assures all our products complying with the minimum standard of the world-class billiard standard and that listed in BCA.

VIGMA's Guarantee

VIGMA is so proud in making quality and stylish billiard balls that we even guarantee your satisfaction of VIGMA products. If you are not completely satisfied with our products, VIGMA's representatives are always here to provide you with the best assistance.

Don't let your imagination die, let VIGMA incarnates it into Works of Art.

WWW.VIGMA.COM

The advertisement features a dark blue background with a white horizontal band. In the center, three billiard ball keychains are displayed: a blue ball with the number 2, an orange ball with the number 5, and a purple ball with the number 12. To the right of the keychains, the text "VIGMA = PERFECT = SATISFACTION" is written in blue and black. Below the keychains, the word "VIGMA" is written in large, light blue, sans-serif letters. Underneath that, the company's address is listed in white text. To the right of the address, the telephone and fax numbers are provided, followed by the email address. At the bottom, the website URL "WWW.VIGMA.COM" is written in light blue, spaced-out letters.

SPECIALTIES

Pearl is one of the scarcest jewels in the world and is the dream jewel of many people. VIGMA makes their dreams come true in introducing Virgin Pearl. VIGMA incorporates the advanced technology to create the pearl-like billiard balls for the pool-players. The sparkling pearl-like particles are distributed in the ball surface and make the Virgin Pearl look so real. Every Virgin Pearl is inspected and tested to assure the good quality for the players to enjoy it at the pool as well as collecting it. VIGMA provides unique style as well as quality. It is irresistible to add this work of art into your collectibles.

No one would even know all the mysteries of the Galaxy, but you would possess it. Imagine playing with the VIGMA Galaxy and watching how the star-like billiard balls bombarding each other. The irregular swirl pattern on the balls takes you to the dream of fantasy. Who would ever say you do not have the control over the Galaxy?

SPECIALTIES

Imagine playing the pool feel like living in the Shangri-La! This set of billiard balls will bring you into paradise of the pool. The balls are made to have high clarity with bands of glittering dyes inside the ball featuring silvery numbers. Watch how this fantastic combination glimmers under the pool light in the way that you never see before. So laid back, relax and enjoy playing with the VIGMA Shangri-La and see the paradise visualized in front of you. The VIGMA Shangri-La will sure unwind the stress you and your players have from work. Playing with VIGMA is joie de vivre.

BOTH VIGMA VIRGIN PEARL AND VIGMA SHANGRI-LA WEIGHT SLIGHTLY LESS THAN COMMON BILLIARD BALLS. THE CHARACTERISTIC MAKES PLAYING POOL AT EASE, ESPECIALLY FOR FEMALE PLAYERS. THE UNIFORMITY IN WEIGHT AND DENSITY AMONG BALLS WILL HAVE SAME COLLISION EFFECTS COMPARING TO OTHER COMMON BILLIARD BALLS.
